CASE STUDY

CapMan

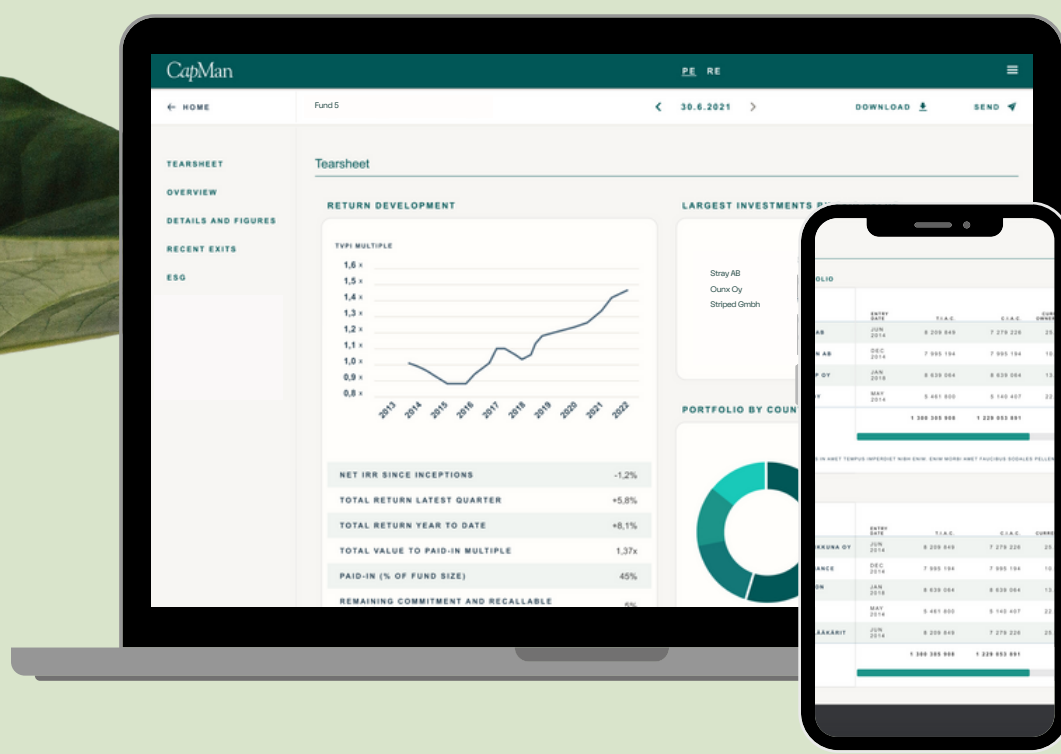

“Our operations and processes are much more efficient than they have ever been in the past”

Introducing our customer Capman, a leading private equity firm specializing in growth-stage companies.

They recognized the need for streamlining their reporting process, which previously involved tedious manual work such as copying and pasting data and text. Seeking for a solution, Capman found great potential in our platform and decided to implement Zapflow LP Portal.

With the LP Portal, Capman has experienced a significant improvement in their reporting process, making it easier to gather data, create impressive LP reports, and effectively showcase their achievements to LPs.

The need to maintain duplicate data in different locations has been eliminated, as all relevant information is readily accessible.

Capman story

CapMan is a leading Nordic private asset expert with an active approach to value creation. As one of the Nordic private equity pioneers, they have developed hundreds of companies and real estate assets and created substantial value in these businesses and assets over the past 30 years.

With over €4 billion in assets under management, our objective is to provide attractive returns and innovative solutions to investors.

The LP reporting process and challenges before Zapflow

“

Previously, the reporting process involved a significant amount of manual work, including copying and pasting data and text. This serves as a notable example of the positive changes we have implemented within our company through the adoption of ZapFlow LP Portal. Specifically, when considering the reporting process, it has become significantly easier to gather data, create impressive LP reports, and showcase our achievements to LPs.

We no longer need to maintain duplicate data in different locations, as everything is readily accessible. The adoption of LP Portal has brought about significant positive changes to our reporting process. We are proud of the advancements we have made and remain committed to leveraging LP Portal's capabilities to drive continued success.

WHY CAPMAN CHOSE ZAPFLOW

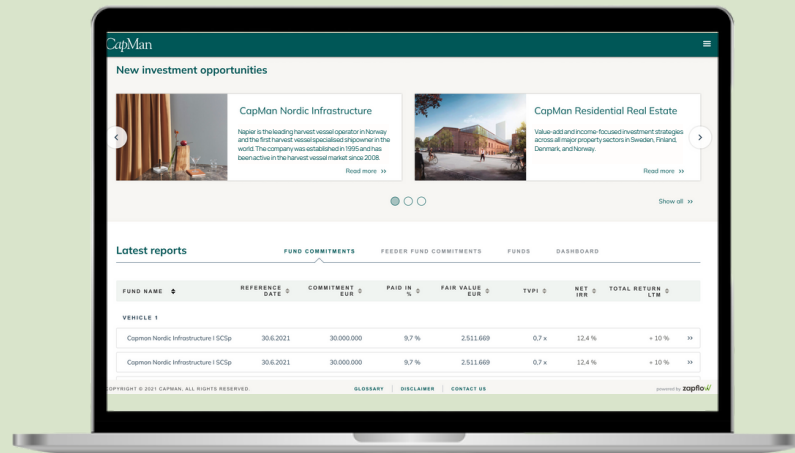

When Capman run the search for a suitable platform to support their goals, ZapFlow ticked all the boxes as the ideal choice. The decision process revolved around finding a solution that would provide easy accessibility, improved usability, and increased efficiency.

Capman recognized the importance of a system that would not only meet their current needs but also have the potential for further development and growth. Zapflow's LP Portal ticked all the boxes, offering a user-friendly interface and robust features that aligned perfectly with Capman's business requirements.

Zapflow's LP Portal was created specifically with the needs and challenges of asset management and investment professionals in mind, and now serves as Capman's secure location for sharing reports and enabling LPs to access their GPs data privately.

“ Zapflow provided an easily accessible, a lot easier to use and more efficient platform for us”

THE IMPACT

“The best part was that Zapflow understood the kind of functionality and problems we were facing.”

200 hours gained

150 people team collaboration streamlined

Quarterly reporting process built

LP reporting process automated

Data is collected automatically

No duplication

Full accessibility

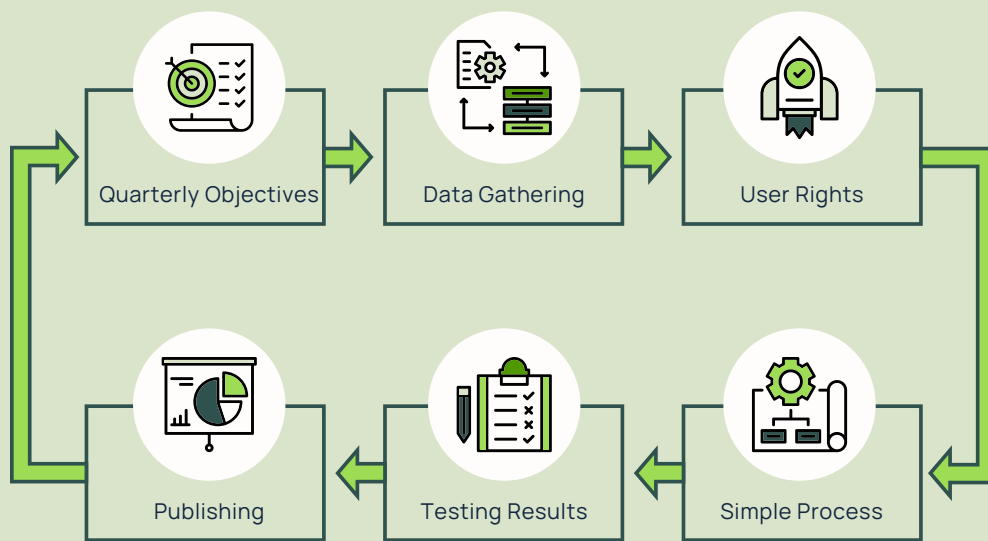

Showcasing fund's achievement

ZapFlow's LP Portal brought Capman the system they were looking for. They estimate that the LP Portal saves them approximately 200 hours of reporting work, which can now be allocated to supporting their operations and facilitating their pursuit of success.

Capman witnessed a significant reduction in manual work, enabling them to gather data effortlessly, create impressive LP reports, and showcase their achievements effectively.

Through the implementation of LP Portal, our customer was able to streamline their operations, eliminate duplicate data, and drive success in their respective fields.
